Customer Solutions Center

BAKER HUGHES | TECHNICAL FACILITIES CONSTRUCTION PROJECT

ARCHITECT

Syvetsen Rigosu
Architects

PROJECT SIZE

40,505 SF

LOCATION

San Jose, CA

COMPLETION DATE

June 2019

PROJECT SCOPE

The Baker Hughes (BHGE) project comprised of an interior renovation of 40,505 sf of a technical facilities space, which provides the most advanced non-destructive testing technologies under one roof and is the second facility of its kind in the United States. The scope of the project entailed concrete trenching for new electrical and mechanical systems, newly constructed walls combining office and technical space, hard and suspending ceilings and customized rolling gates separating the open floor and learning facility.

This Customer Service Center (CSC) will house BHGE's most advanced X-Ray and CT systems, as well as a state-of-the-art climate-controlled room for computed tomography metrology and dedicated spaces for industrial inspection services and training.
